

software. TopWin supports multi-window mode, namely, it can connect several programmers to the computer to record the device without any interference. All this indicates the convenience of the program when working with the device and the absence of cluttering the screen with programs. There is nothing unusual in the operation of the program, everything happens according to the standard scheme: 1. Turn off the computer. 2. Connect the device. 3. Click on the "Create" button 4. Write the file. 5. Turn off the computer. Rice. 2.9. Main window of TopWin 5.7. TopWin This program allows you to create images of USB devices using other utilities, such as WinHex.
